

Chief Executive Officer

Mildura Base Public Hospital

Mildura Base Hospital is a sub-regional 165 bed (Level 1) tertiary teaching hospital servicing about 80,000 people in the Sunraysia area. The hospital provides a range of acute services including emergency, maternity, intensive care, general medicine and surgery, oncology, medical imaging, pathology, dialysis, mental health (inpatient and community services) and a range of ambulatory services. Mildura Base Public Hospital (MBPH) is affiliated with Monash and La Trobe Universities for the provision of undergraduate and postgraduate medical, nursing and allied health education.

Since it opened in 2000, Mildura Base Hospital has been operated by a private operator. Following feedback from broad consultation, the Victorian Government has decided to return the MBH to public sector management when the current agreement ends on 15 September 2020. This decision will bring the governance and management of the operations of Mildura Base Hospital in line with all other rural Victorian public health services. MBPH will be governed by a Minister appointed Board of Directors.

The position of Chief Executive Officer (CEO) of the new Mildura Base Public Hospital will be founded on a sound relationship with the new Board. This is a prerequisite for effective governance and effective performance of the organisation. The role of the CEO is to ensure the organisation achieves the strategic plan as developed and defined by the Board. It is the CEO's responsibility to implement the strategic plan and ensure delivery within defined clinical and financial frameworks.

To meet the requirements of this exciting career opportunity, some previous experience as a CEO in the Australian or equivalent health sector is highly regarded. The Board is seeking a professional with substantial demonstrated experience managing and operating high quality health services and ability to define and clearly communicate vision and strategy and to ensure the vision is effectively translated into clear business goals and objectives. You will also hold relevant tertiary qualification and have extensive knowledge of current trends affecting public sector health in Victoria and Australia. An attractive remuneration package will be negotiated to secure the highest calibre candidate for this key appointment. Full details are available on our web site:
