

GENERAL MANAGER (HRAR)

Connect health & community

- **Temporary senior role (Dec 2021)**
- **Flexible working arrangements**
- **Based in Cheltenham**

HRAR (High Risk Accommodation Response) is focussed on preventing, preparing for and responding early to COVID-9 infections, to minimise the transmission in high risk, shared facilities accommodation settings across the Bayside, Glen Eira and Kingston local government areas, whilst concurrently supporting a robust outbreak management response in places where outbreaks occur.

This position is responsible for all aspects of the HRAR project, in line with the broader organisational strategy, in collaboration with internal and external stakeholders and within budget

The General Manager HRAR is pivotal to the development and success of Connect Health as lead agency of the middle catchment HRAR. It requires an individual who can think laterally, is capable of effective leadership, skilled in developing team members and relationships with stakeholders. The role demands a highly motivated individual committed to health promotion in the community who shows initiative, the ability to problem solve and the capacity to respond flexibly to unexpected demands.

Successful candidates will hold:

- Tertiary qualification in Health Promotion, Health Marketing, Population Health, Public Health or a related health field
- Professional registration with the appropriate membership body where applicable
